

WEB TEAM - WEEK 1

Ready to explore the realm of Web Development and master your skills in making the face of the internet even better?

Worry not, we've got you covered!

For week one we will be starting off with a simple task based on front-end dev. Get ready and

start coding!

Task 1

Create a simple HTML page containing a form to get the input(task title and task description) and a table to display all the tasks.

Steps:

Step 1: Install VS Code

Step 2: Install live server(for previewing HTML page) extension and IntelliCode(for autocompletion of code)

Step 3: Create a folder, open it in VS code and add index.html file

Step 4: Refer the basic HTML tutorials, learn the usage of each tags and try to implement the page given below.

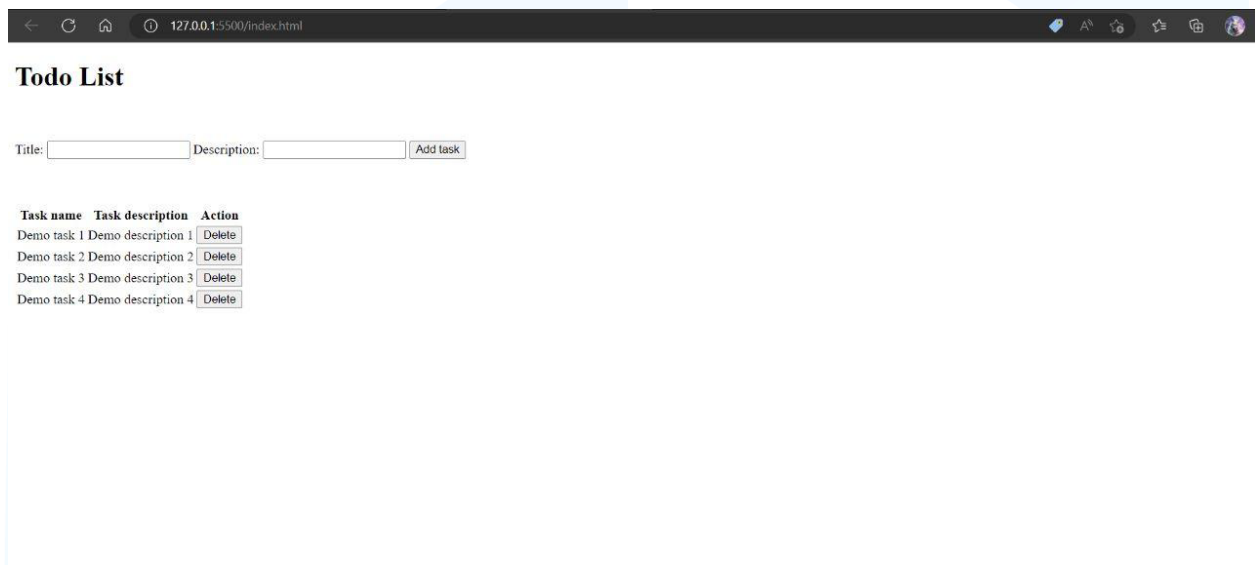

References:

HTML (<https://www.youtube.com/watch?v=qz0aGYrrlhU>) or
(<https://www.youtube.com/watch?v=PlxWf493en4>)

You can also have some creative ideas to improvise the design and refer to the following image

on how the website will look.

THANK YOU!
