

ANDROID TEAM WEEK 4

Android Task – 4:

It's great that you have come till this stage and would have learnt many things by now. Now we are at the end of our journey. By the end of this task, the app should be fully functional with all the minimum requirements specified from task-1 to till date. As the final submission, we want you to share your project in github and upload the app apk in the form provided at the end of the event.

Optional task:

Interested people can also implement RecyclerView as shown in the app UI.

TECH ODYSSEY
